MAXIMUM FAIR RENT CALCULATION

LATEST RPI FIGURE x 200.1

PREVIOUS RPI FIGURE y 181.3

X 200.1 Minus y 181.3 = (A) 18.8

(A) 18.8 divided by y 181.3 = (B) 0.103696

First application for re-registration since 1 February 1999 NO

If yes (B) plus 1.075 = (C)

If no (B) plus 1.05 = (C) 1.153696

Last registered rent* 68.00 Multiplied by (C) = 78.45
 *(exclusive of any variable service charge)

Rounded up to nearest 50 pence = 78.50

Variable service charge NO

If YES add amount for services

MAXIMUM FAIR RENT = 78.50 Per Week

Explanatory Note

1. The calculation of the maximum fair rent, in accordance with the formula contained in the Order, is set out above.
2. In summary, the formula provides for the maximum fair rent to be calculated by:
 - (a) increasing the previous registered rent by the percentage change in the retail price index (the RPI) since the date of that earlier registration and
 - (b) adding a further 7.5% (if the present application was the first since 1 February 1999) or 5% (if it is a second or subsequent application since that date).

A 7.5% increase is represented, in the calculation set out above, by the addition of 1.075 to (B) and an increase of 5% is represented by the addition of 1.05 to (B).

The result is rounded up to the nearest 50 pence.

3. For the purposes of the calculation the latest RPI figure (x) is that published in the calendar month immediately before the month in which the Committee's fair rent determination was made.
4. The process differs where the tenancy agreement contains a variable service charge and the rent is to be registered as variable under section 71(4) of the Rent Act 1977. In such a case the variable service charge is removed before applying the formula. When the amount determined by the application of the formula is ascertained the service charge is then added to that sum in order to produce the maximum fair rent.

Rent Assessment Committee: Summary reasons for decision.

1. Background

On 6 April 2006 the landlord applied to the rent officer for registration of a fair rent of £90 per week for the above property.

The rent payable at the time of the application was £68 per week.

The rent was previously registered on 16 June 2003 with effect from the same date at £68 per week following a determination by a rent assessment committee.

On 6 July 2006 the rent officer registered a fair rent of £75 per week with effect from that date.

By a letter dated 10 August 2006 the tenant objected to the rent determined by the Rent Officer and the matter was referred to the Rent Assessment Committee.

2. Inspection

The Committee inspected the property on 8 November 2006 and found it to be in poor condition and as described more particularly in the Rent Officer's survey sheet which had been copied to the parties.

3. Evidence

The Committee received written representations from the tenant and these were copied to the landlord. No written representations were received from the landlord.

A hearing was arranged for 8 November 2006 at 10 Alfred Place but neither party attended.

4. The law

When determining a fair rent the Committee, in accordance with the Rent Act 1977, section 70, had regard to all the circumstances including the age, location and state of repair of the property. It also disregarded the effect of (a) any relevant tenant's improvements and (b) the effect of any disrepair or other defect attributable to the tenant or any predecessor in title under the regulated tenancy, on the rental value of the property.

In *Spath Holme Ltd v Chairman of the Greater Manchester etc. Committee* (1995) 28 HLR 107 and *Curtis v London Rent Assessment Committee* [1999] QB 92 the Court of Appeal emphasised

- (a) that ordinarily a fair rent is the market rent for the property discounted for 'scarcity' (i.e. that element, if any, of the market rent, that is attributable to there being a significant shortage of similar properties in the wider locality available for letting on similar terms - other than as to rent - to that of the regulated tenancy) and
- (b) that for the purposes of determining the market rent, assured tenancy (market) rents are usually appropriate comparables. (These rents may have to be adjusted where necessary to reflect any relevant differences between those comparables and the subject property).

5. Valuation

Thus in the first instance the Committee determined what rent the landlord could reasonably be expected to obtain for the property in the open market if it were let today in the condition that is considered usual for such an open market letting. It did this by having regard to the Committee's own general knowledge of market rent levels in the area of Highgate. Having done so it concluded that such a likely market rent would be £110 per week.

However, the actual property is not in the condition considered usual for a modern letting at a market rent. Therefore it was first necessary to adjust that hypothetical rent of £110 per week to allow for the differences between the condition considered usual for such a letting and the condition of the actual property as observed by the Committee (disregarding the effect of any disrepair or other defect attributable to the tenant or any predecessor in title). The Committee considered that this required a deduction of £22 per week.

This leaves an adjusted market rent for the subject property of £88 per week.

The Committee found that there was substantial scarcity in the locality of Greater London and therefore made a deduction of approximately 20% from the market rent to reflect this element.

6. Decision

The uncapped fair rent initially determined by the Committee, for the purposes of section 70, was accordingly £70.00 per week.

The section 70 fair rent determined by the Committee is below the level as the maximum fair rent permitted by the Rent Acts (Maximum Fair Rent) Order 1999 and accordingly that rent limit has no effect. Details are provided on the back of the decision form.

Accordingly the sum of £70 per week will be registered as the fair rent with effect from 22 November 2006 being the date of the Committee's decision.
