#### **1. Background**

On 14 November 2005 the landlord applied to the rent officer for registration of a fair rent of £75.00 per week for the above property.

The rent payable at the time of the application was £54.00 per week.

The rent was previously registered on 30 January 2004 with effect from the same date at £54.00 per week following a determination by the rent officer.

On 9 January 2006 the rent officer registered a fair rent of £60.00 per week with effect from 30 January 2006.

By a letter dated 12 January 2006 the landlord objected to the rent determined by the Rent Officer and the matter was referred to the Rent Assessment Committee.

#### **2. Inspection**

The Committee inspected the property externally on 7 March 2006 and found it to be in fair condition.

#### **3. Evidence**

The Committee received written representations from the landlord and tenant and these were copied to the parties.

Neither party requested a hearing at which oral representations could be made.

#### **4. The law**

When determining a fair rent the Committee, in accordance with the Rent Act 1977, section 70, had regard to all the circumstances including the age, location and state of repair of the property. It also disregarded the effect of (a) any relevant tenant's improvements and (b) the effect of any disrepair or other defect attributable to the tenant or any predecessor in title under the regulated tenancy, on the rental value of the property.

In *Spath Holme Ltd v Chairman of the Greater Manchester etc. Committee* (1995) 28 HLR 107 and *Curtis v London Rent Assessment Committee* [1999] QB 92 the Court of Appeal emphasised

- (a) that ordinarily a fair rent is the market rent for the property discounted for 'scarcity' (i.e. that element, if any, of the market rent, that is attributable to there being a significant shortage of similar properties in the wider locality available for letting on similar terms - other than as to rent - to that of the regulated tenancy) and
- (b) that for the purposes of determining the market rent, assured tenancy (market) rents are usually appropriate comparables. (These rents may have to be adjusted where necessary to reflect any relevant differences between those comparables and the subject property).

#### **5. Valuation**

Thus in the first instance the Committee determined what rent the landlord could reasonably be expected to obtain for the property in the open market if it were let today in the condition that is considered usual for such an open market letting. It did this by having regard to the evidence supplied by the parties and the Committee's own general knowledge of market rent levels in the area of Worcester. Having done so it concluded that such a likely market rent would be £80.00 per week.

Neither party made representations regarding any improvements or internal condition.

**This leaves a fair rent for the subject property of £72.00 per week.**

#### **6. Decision**

The fair rent initially determined by the Committee, for the purposes of section 70, was accordingly £72.00 per week.

However, by virtue of the Rent Acts (Maximum Fair Rent) Order 1999 the maximum fair rent that can be registered in the present case is the lower sum of £60.00 per week (Details are provided on the back of the decision form).

**Accordingly the sum of £60.00 per week will be confirmed as the fair rent with effect from 7 March 2006 being the date of the Committee's decision.**
