Mr A L Strowger (Chair)  
Mr P J R Michelmores FRICS  
Mr P G Groves

**1. Background**

On 6<sup>th</sup> July 2004 the landlord's agent applied to the rent officer for registration of a fair rent of £ 1200.00 per Quarter for the above property.

The rent payable at the time of the application was £ 819.00 per Quarter.

The rent was previously registered on 6<sup>th</sup> June 2002 with effect from the same date at £ 819.00 per calendar month following a determination by the rent officer.

On 29<sup>th</sup> July 2004 the rent officer registered a fair rent of £ 908.00 per Quarter with effect from that date.

By a letter dated 23<sup>rd</sup> August 2004 the Landlord's agent objected to the rent determined by the Rent Officer and the matter was referred to the Rent Assessment Committee.

**2. Inspection**

The Committee inspected the property on Wednesday 20<sup>th</sup> October 2004 and found it to be in fair order with some windows in poor condition as described more particularly in the Rent Officer's survey sheet, which had been copied to the parties. The Committee also noted the poor condition of the sanitary goods including the leaking waste to the wc. Externally the Committee noted the potentially dangerous condition of the access path, handrail and above ground drainage.

The following tenant's improvements had been made to the property  
As listed in the Rent Officers report

### **3. Evidence**

The Committee received written representations from the tenant and these were copied to the landlord's agent. No written representations were received from the landlord.

A hearing was held on 20<sup>th</sup> October 2004 at the Assembly Hall, Cliff house, Salcombe at which oral representations were made by the tenant. The landlord was not present or represented.

### **4. The law**

When determining a fair rent the Committee, in accordance with the Rent Act 1977, section 70, had regard to all the circumstances including the age, location and state of repair of the property. It also disregarded the effect of (a) any relevant tenant's improvements and (b) the effect of any disrepair or other defect attributable to the tenant or any predecessor in title under the regulated tenancy, on the rental value of the property.

In *Spath Holme Ltd v Chairman of the Greater Manchester etc. Committee* (1995) 28 HLR 107 and *Curtis v London Rent Assessment Committee* [1999] QB 92 the Court of Appeal emphasised

- (a) that ordinarily a fair rent is the market rent for the property discounted for 'scarcity' (i.e. that element, if any, of the market rent, that is attributable to there being a significant shortage of similar properties in the wider locality available for letting on similar terms - other than as to rent - to that of the regulated tenancy) and

- (b) that for the purposes of determining the market rent, assured tenancy (market) rents are usually appropriate comparables. (These rents may have to be adjusted where necessary to reflect any relevant differences between those comparables and the subject property).

The Committee also has to have regard to the Rent Acts (maximum fair rent) order 1999 where applicable. Most objections to and determinations of registered rents are now subject to the order, which limits the amount of rent that can be charged by linking increases to the retail price index. It is the duty of the Rent Assessment Committee to arrive at the fair rent under Section 70 of the Act but in addition to calculate the maximum fair rent which can be registered according to the rules set out in the order. If that maximum rent is below the fair rent calculated as above, then that (maximum) sum must be registered as the fair rent for the subject property.

## **5. Valuation**

Thus in the first instance the Committee determined what rent the landlord could reasonably be expected to obtain for the property in the open market if it were let today in the condition that is considered usual for such an open market letting. It did this by having regard to the evidence supplied by the landlord and the Committee's own general knowledge of market rent levels in the holiday areas of South Devon. Having done so it concluded that such a likely market rent would be £1350 per quarter.

However, the actual property is not in the condition considered usual for a modern letting at a market rent (usually Assured Shorthold Tenancies). Therefore, it was first necessary to adjust that hypothetical rent of £1350 per quarter to allow for the differences between the condition considered usual for such a letting and the condition of the actual property as observed by the Committee (disregarding the effect of any disrepair or other defect attributable to the tenant or any predecessor in title). The Committee considered that this required a deduction of £200.00 per quarter to include tenant's improvements.

The Committee also deducted £100.00 per quarter to allow for scarcity.

This leaves a net market rent for the subject property of £960.00 per quarter.

## **6. Decision**

The fair rent initially determined by the Committee, for the purposes of section 70, was accordingly £960.00 per quarter.

However, by virtue of the Rent Acts (maximum fair rent) order 1999 the maximum fair rent that can be registered in the present case is the lower sum of £912.50 per quarter.

**Accordingly the sum of £912.50 per quarter will be registered as the fair rent with effect from 20<sup>th</sup> October 2004 being the date of the Committee's decision.**

Chairman   
A L Strowger (Chairman)

Dated 20<sup>th</sup> October 2004
